

Security organization worksheet

Part 1: Describe your security interests
• Pen Testing • Raising Security Awareness • Cloud Security
Part 2: Identify three organizations and include their mission or objectives
• Organization 1: 360 Advanced - 360 Advanced works with organizations that are seeking to assure data security, privacy, compliance, and processing integrity. Our open communication policy helps to facilitate a more thorough assessment of an organization's IT security. • Organization 2: SANS Institute - Their ongoing mission is to empower current and future cybersecurity practitioners with practical skills and knowledge that make the digital world safer, and to support the global cybersecurity community at every stage of their journey. • Organization 3: Cloud Security Alliance - CSA Working Groups are the go-to source for best practices, research and tools for providing security assurance and privacy in the cloud.
Part 3: Write out which organization aligns with your interests and why
• Organization 2: I respect the goal of the SANS Institute wanting to make the digital world a safer place. Many innocent people have had lots of financial resources stolen from them. • Best choice for my professional interests: I'll learn more about the SANS institute and/or similar groups. I plan to help others stay safe online.
